

experience baby CURRICULUM™

Your child will participate in a nationally recognized education program that is designed uniquely for infants from birth to 18 months. Experience Baby Curriculum is an infant curriculum that supports relationship-based play and discovery. As your child participates in this program, he will:

- Build emotional connections that are key for developmental growth.
- Have access to specialized sensory tools and toys that invite him to explore and make sense of his environment.
- Engage in playful activities that stimulate his brain and supports his development of **35 foundational skills**.

Individualized Play and Learning for Continued Growth

Your child's teacher will use books, puppets, music and toys to help your child develop the 35 foundational skills connected to emotional, language, physical and cognitive development. As your child grows, the Experience Baby Curriculum helps the teacher individualize the experience and increase the challenge so that your child is constantly learning at his unique pace.

Beyond Bottles and Diapers: A Full Infant Education Program

Beyond the typical bottle and diaper tracking, you will receive a daily journal where you will see which activities your child engaged with and learn about the skills she gained throughout the day from the purposeful play.

Your child's brain doubles in size during her first year and is at 90% of its adult size by age 5. Research has shown that the quality of a child's experiences in the first few years significantly shapes how their brains develop into adulthood.

It is the goal of Experience Baby Curriculum to build meaningful shared experiences between infants and nurturing adults. To ensure that your child benefits from the latest teaching methods and the highest quality tools for hands-on learning, your child's teacher receives a new Experience Baby Teaching Kit every month. Each month features a new theme and 36 play-based activities to explore with your child.

With Experience Baby Curriculum, your child will be busy learning from birth through 18 months!
